

Range 8 Income

Generate an annual income

This Product is a Securitised Derivative* which is for retail and professional investors in the UK, who have a good understanding of the underlying market and characteristics of the Product. In particular, it is important that you appreciate at the outset that you could lose all of your capital when investing in this Product, even if it is held until the end of its term.

This Product is a long term investment with a maturity of five years. Société Générale is the only market-maker and therefore the only liquidity provider for this Product. Liquidity will only be available in normal market conditions.

*A Securitised Derivative (SD) is a security listed on the London Stock Exchange and issued by a bank via a base prospectus which is approved by the UK Listing Authority. Final terms are published for each SD which provides investors with its characteristics and its pay-off at maturity. The Product features given in the final terms are prescribed by the approved base prospectus.

Introducing the Range 8 Income

The Daily Accrued Coupon is locked-in every day that the Index closes within the Specified Range.

The Range 8 Income is for retail and professional investors in the UK who have a good understanding of the underlying market and the particular characteristics of this Product. In particular, it is important that you appreciate at the outset that you could lose all of your capital when investing in this Product, even if you hold it until the end of its term.

The Range 8 Income is issued by Société Générale Acceptance N.V. and traded on the London Stock Exchange. Société Générale Acceptance N.V. is a subsidiary of Société Générale and Société Générale guarantees payment of sums due under the Range 8 Income product. The aim of the Product is to pay an accrued Annual Coupon based on the number of Trading days the FTSE 100 Index closed at levels within a Specified Range for each year of the Product's five year term.

The Daily Accrued Coupon is locked-in every day that the Index closes on any Trading Day within the Specified Range. If the Index does not close within the Specified Range on any particular Trading Day, the Daily Accrued Coupon will be lost for that day. However, all Daily Accrued Coupons already locked-in are not at risk, and future accruals will continue, provided that the Index returns to within the Specified Range. The Maximum Annual Coupon of 8% will only be achieved if the Index closes within the Specified Range on every Trading Day for that year.

If the Index is higher than the Barrier Level on the Final Determination Date, capital is repaid at maturity.

As long as the Index closes higher than the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, capital will be repaid on the Maturity Date. If the Index closes at or below the Barrier Level on the Final Determination Date, capital will be lost. The Product can be sold before the end of its term but investors may get back less than they invested irrespective of the FTSE 100's performance.

Any failure by Société Générale Acceptance N.V. to make payments due under the Product may result in the loss of all or part of your investment. Insofar as payments are due by Société Générale in its capacity as Guarantor, investors are exposed to a credit risk on Société Générale. Société Générale has an A+ credit rating from Standard & Poors and an Aa2 rating from Moody's. However, if the Issuer is unable to make payments due under the Product, it is highly likely, given their association, that the Guarantor will be unable to fulfil their obligations under the guarantee. For an explanation of what these ratings mean see the 'Credit ratings' section on page 12.

Key Dates

| | |
|--------------------------|--|
| Launch Date | 28 March 2011 |
| Issue Date | 19 April 2011 |
| Initial Valuation Date | 18 April 2011 |
| Anniversary Dates | 13 April 2012 12 April 2013 11 April 2014 13 April 2015 |
| Payment Dates | 30 April 2012 29 April 2013 29 April 2014 29 April 2015 |
| Final Determination Date | 13 April 2016 |
| Investment Term | 5 Years |
| Maturity Date | 29 April 2016 |

Calculating the Specified Range and Barrier Level

The final levels of the Specified Range and Barrier Level will be determined on 18 April 2011 when the Initial Index Level is known.

Purely for illustration, let us assume a closing level of 5,800 for the FTSE 100 Index to show how the final levels will be calculated. An Initial Index Level of 5,800 would result in a Specified Range of:

Upper Limit (+21% of Initial Index Level): $5,800 \times 121\% = 7,018$

Lower Limit (-23% of Initial Index Level): $5,800 \times 77\% = 4,466$

The Barrier Level can be calculated in a similar way:

Barrier Level (60% of Initial Index Level): $5,800 \times 60\% = 3,480$

Calculating the Annual Coupon and Payoff at maturity

For each year of the term starting from 30 April 2012, you will receive an Annual Coupon based on the number of Trading Days that the Index closes at a level within the Specified Range in that year. If it closes at a level outside the Specified Range on every Trading Day during the year you will receive no Annual Coupon for that year. At maturity, you will also receive a Capital Amount based on the closing level of the Index on the Final Determination Date. If at this point, the Index is equal to or below the Barrier Level of 60% of the Initial Index Level, the Capital Amount will be less than the Issue Price, and your capital will be lost. If the Index is higher than the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, the Capital Amount will be equal to your initial invested amount will be repaid.

1. Annual Coupon Payment

The Annual Coupon will be based on the number of Trading Days that the Index closed at a level within the Specified Range that year, up to a Maximum Annual Coupon of 8% of your initial investment. The actual Annual Coupon paid is calculated in the following way:

Maximum Annual Coupon (8%) x (Number of Trading Days on which the Index closes within the Specified Range/Total number of Trading Days in the relevant year).

The Annual Coupon is calculated in this way on each Anniversary Date throughout the Investment Term, and on the Final Determination Date. Annual Coupons are paid into the trading account of all holders of the Product on the Payment Dates listed in the Key Dates table, and on the Maturity Date in respect of the Annual Coupon calculated on the Final Determination Date.

2. Repayment of the Capital Amount at maturity:

At maturity, you will also receive a Capital Amount based on the closing level of the Index on the Final Determination Date. The Capital Amount can be either of the following:

- 1. Reduced capital repayment.** If the Final Index Level is equal to or lower than the Barrier Level on the Final Determination Date, your initial investment will be reduced by the percentage (%) amount that the Final Index Level is below the Initial Index Level. For example, if the Index is at a level which is 55% of its Initial Index Level, the Capital Amount will be £55 per unit. Hence, you could lose some or all of your initial investment.
- 2. Full capital repayment.** If the Final Index Level is higher than the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, you will receive a Capital Amount equal to your initial invested capital.

What are the key benefits and risks of investing in the Range 8 Income?

| Key Benefits | Key Risks |
|--|---|
| Potential to receive an annual income of up to 8% of your initial investment. | Your annual Income is capped at 8% of your initial investment. The Index is subject to fluctuation and could breach the Specified Range, which will affect your annual income. |
| Your initial investment will be repaid provided the Final Index Level is higher than the Barrier Level (60% of the Initial Index Level) on the Final Determination Date. | Your capital repayment will be reduced if the Index closes below or is equal to the Barrier Level (60% of its Initial Index Level) at the Final Determination Date and you will lose money. |
| The Product is listed on the London Stock Exchange and can be traded at any point during the Trading Day under normal market conditions. | You can sell the Product before the end of its term but may get back less than you invested irrespective of the performance of the Index. |
| Eligible for investment into an investment ISA or a SIPP. Investments made outside of an ISA or SIPP may be subject to Income Tax*. | If the Issuer, Société Générale Acceptance N.V. and Société Générale as Guarantor, fail to make payments due under the Product, you could lose all your initial investment. You would not have a claim for compensation from the Financial Services Compensation Scheme or any other compensation scheme. |

**The tax statement is only a general guide. The tax treatment of investments will depend on an individual's circumstances. If investors are in any doubt as to their tax position, they must consult with an appropriate professional tax adviser. This statement of the UK tax treatment of the Product is based on our understanding of the laws and practice in force as of the date of this document and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect.*

Key Dates

| | |
|--------------------------|---|
| Launch Date | 28 March 2011 |
| Issue Date | 19 April 2011 |
| Initial Valuation Date | 18 April 2011 |
| Anniversary Dates | 13 April 2012, 12 April 2013 11 April 2014, 13 April, 2015 |
| Payment Dates | 30 April 2012, 29 April 2013 29 April 2014, 29 April 2015 |
| Final Determination Date | 13 April 2016 |
| Investment Term | 5 Years |
| Maturity Date | 29 April 2016 |

Key Terms

| Product | Range 8 Income |
|---------------------------|--|
| Type | Financial instrument issued under English law. Securitised Derivative*. |
| Issuer | This Product is issued by Société Générale Acceptance N.V., a member of the SOCIÉTÉ GÉNÉRALE group of companies. Any failure of Société Générale Acceptance N.V. to make payments due under the Product may result in the loss of all or part of your investment. |
| Guarantor | Société Générale is the Guarantor of the Product. Insofar as payments are due by Société Générale in its capacity as Guarantor, investors are exposed to a credit risk on Société Générale (or its successor). If the Issuer, Société Générale Acceptance N.V., is unable to make payments due under the Product, it is highly likely, given their association, that the Guarantor will be unable to fulfil their obligations under the guarantee, and you may lose some or all of your investment. As of 24 March 2011, Société Générale has an A+ credit rating from Standard & Poors and an Aa2 rating from Moody's. For an explanation of what these ratings mean see the 'Credit ratings' section on page 12. |
| Issue Price | £100 The explanation in this brochure is based on the assumption that you are buying the Product on the Issue Date. On the secondary market, starting after the Issue Date, the amount you pay per unit may be different and will depend on market conditions at the time of trading. The Capital Amount returned at maturity is based on the Issue Price, and not the price paid in the secondary market. If you purchase the Product at a price greater than £100 you will receive less than you paid for the Product at maturity. |
| Minimum Investment Amount | 5 units (£500) |
| Index | FTSE 100 Index The Initial Index Level of the Product is the closing level of the Index on the Initial Valuation Date and not the level of the Index on the day you place your order. Please be aware that the level of the Index may vary between these two dates. |
| Initial Index Level | The closing level of the Index on the Initial Valuation Date. |
| Final Index Level | The closing level of the Index on the Final Determination Date. |
| Specified Range | The Specified Range is that between the Lower Limit and the Upper Limit. The Initial Index Level determines the Specified Range. The Index must close within this range on every Trading Day in order for the Product to lock in the Maximum Annual Coupon. |
| Upper Limit | The Upper Limit of the Specified Range determines the maximum level that the FTSE 100 Index must close below on any given Trading Day for a Daily Accrued Coupon to be paid for that day. Should the Index close at a level equal to or above the Upper Limit, the Daily Accrued Coupon will be lost. It is calculated as a level 21% above the Initial Index Level. |
| Lower Limit | The Lower Limit of the Specified Range determines the minimum level that the FTSE 100 Index must close above on any given Trading Day for a Daily Accrued Coupon to be paid for that day. Should the Index close at a level equal to or below the Lower Limit, the Daily Accrued Coupon will be lost. It is calculated as a level 23% below the Initial Index Level. |
| Barrier Level | 60% of the Initial Index Level. |
| Capital Amount | The amount you invested at the launch of the Product. If the Final Index Level is higher than the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, you will receive the full repayment of your capital. If the Index closes at, or below, the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, the Capital Amount will be less than the Issue Price and your capital will be lost. |
| Maximum Annual Coupon | 8% |
| Daily Accrued Coupon | Equal to the Maximum Annual Coupon divided by the number of Trading Days during the year. |
| Annual Coupon | The Annual Coupon will be based on the number of Trading Days that the Index closed at a level within the Specified Range that year, up to a Maximum Annual Coupon of 8% of your initial investment. The Annual Coupon is calculated in the following way: Maximum Annual Coupon (8%) x (Number of Trading Days on which the Index closes within the Specified Range/ Total number of Trading Days in the relevant year) |
| Trading Days | Year 1: 249, Year 2: 251, Year 3: 254, Year 4: 251, Year 5: 254 |
| EPIC Code | SG8I |
| ISIN | CWN8138E4096 |

What else should you be aware of?

Issuer risk

As the Product is issued by Société Générale Acceptance N.V., if Société Générale Acceptance N.V. were to fail to make payments due under the Product, you could lose some or all of your investment.

Product risk

The FTSE 100 Index can be volatile and may fall significantly below the Initial Index Level. Should the value of the Index close at or below the Barrier Level on the Final Determination Date, part or all of your capital will be lost. You will be exposed to the performance of the Index from the Initial Index Level with every 1% that the level of the Index on the Final Determination Date is below the Initial Index Level resulting in a loss of 1% of the Issue Price. You should study the final terms and if you are unsure whether the Product is suitable for you, you should seek advice from an independent professional adviser before making an investment decision. Your annual Income is capped at 8% of your initial investment. The Index is subject to fluctuation and could breach the Specified Range, which will affect your annual income. If the Index closes outside the Specified Range every Trading Day during the year you will receive no Annual Coupon for that year.

Example potential returns

The following Illustration is based on a £500 investment which is held until maturity; it shows the total amount you would receive back at maturity and the regular income payments you may receive in a range of different circumstances. It is not a prediction of what will happen or of the limits of the Index's movement.

Capital Amount returned at maturity

At maturity, you will receive a Capital Amount with respect to the number of units held. Some example returns are shown in the table below based on the performance of the Index.

| Change in the FTSE 100 Index from the Initial Index Level to the Final Index Level | Capital is lost? | Capital Amount |
|--|------------------|-----------------------|
| -70% | Yes | 30% of Capital = £150 |
| -50% | Yes | 50% of Capital = £250 |
| -30% | No | £500 |
| -10% | No | £500 |
| 0% | No | £500 |
| 10% | No | £500 |
| 30% | No | £500 |

The value of the Product in the secondary market may be less than you invested irrespective of the performance of the Index. If you sell before maturity, you may lose money.

Eligibility

The Range 8 Income is available to invest in an investment ISA (Individual Savings Account) Product. Investments made outside of an ISA or SIPP may be subject to Income Tax*.

| Wrapper | Eligibility | EPIC Code | ISIN |
|---------|-------------|-----------|--------------|
| Note | ISA, SIPP | SG8I | CWN8138E4096 |

Considerations before investing

To help you decide if the Range 8 Income is right for you, here is a summary of some key points to consider before investing. You should study the final terms and if you are unsure whether the Product is suitable for you, you should seek advice from an independent professional adviser before making an investment decision.

Yes I am happy to invest because:

- I want an investment which will reward me if the Index remains within a Specified Range.
- I can accept the risk of losing my initial investment even if I hold the Product until the end of its term.
- I accept the risk that I could lose some or all of my investment.
- I am interested in the prospect of a potentially higher return than that received from a deposit account albeit that with this Product, my initial investment may not be repaid to me at the end of the Investment Term.
- I want to potentially receive tax-efficient returns on my investment by having the option of investing in an ISA or a SIPP.*

No the investment probably isn't right for me because:

- I do not want to risk losing any of my initial investment which I could do even if I hold the Product until maturity.
- I may need access to some or all of my initial investment before the end of the Investment Term of the Product and cannot risk a loss to capital if I was to sell the Product in the secondary market.
- I am not prepared to take the risk that the Issuer, Société Générale Acceptance N.V., or Société Générale as Guarantor, might fail to make payments due under the Product, in which case I would get back less than was due to me or nothing at all.
- I don't want to risk receiving no return on my initial investment or less than I could have earned in the same period if I had invested in a standard deposit account.
- I don't want to be in the position of not knowing the Initial Index Level, on which the Product is based, prior to making my investment decision as the initial value will be equal to the index closing level as of 18 April 2011.
- I don't want to give up the dividends I might receive if I invested in shares or similar investments.

**The tax statement is only a general guide. The tax treatment of investments will depend on an individual's circumstances. If investors are in any doubt as to their tax position, they must consult with an appropriate professional tax adviser. This statement of the UK tax treatment of the Product is based on our understanding of the laws and practice in force as of the date of this document and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect.*

Important information

Summary of risks

The following risks are in addition to the Issuer Risk and Product Risk identified earlier on page 6.

Capital at Risk The FTSE 100 Index can be volatile and may fall significantly below the Initial Index Level. Should the value of the Index close below the Barrier Level (60% of the Initial Index Level) on the Final Determination Date, part or all of your initial investment will be lost. You will be exposed to the performance of the FTSE 100 Index from the Initial Index Level with every 1% fall in the Index resulting in a loss of 1% of the Issue Price. As you may lose your initial investment, we recommend that you study the final terms and seek advice from an independent professional adviser before making an investment decision.

FTSE 100 Index The value of the Product will depend on the value of the underlying Index (the FTSE 100 Index) which may be volatile. We recommend that you study the final terms and seek advice from an independent professional adviser before making an investment decision.

Counterparty Risk The Product is issued by Société Générale Acceptance N.V., a member of the SOCIÉTÉ GÉNÉRALE group of companies. Any failure by Société Générale Acceptance N.V. as Issuer, or by Société Générale as Guarantor, to make payments due under the Product may result in the loss of all or part of your investment. You will have no claim for compensation from the Financial Services Compensation Scheme or any other scheme.

**Liquidity Risk/
Early Sale Risk** Société Générale is the only market-maker and therefore the only party providing prices for the Product. Trading prices will only be available in normal market conditions. For more information regarding trading, please see the 'Secondary Market' section below.

The Secondary Market

- You can buy or sell the Product at any time in the secondary market prior to maturity on any regular Trading Day from 8.15am to 4.30pm. The value of the Product will vary on an intraday basis.
- Société Générale is the only market-maker and therefore the only party providing prices for all SOCIÉTÉ GÉNÉRALE listed securities. Société Générale will refresh the prices throughout the Trading Day according to London Stock Exchange rules. The pricing offered is monitored by the London Stock Exchange monitoring team, both in terms of spreads and sizes.
- Cases in which there is no guarantee that liquidity or live prices will be available on the secondary market includes where:
 - the underlying asset price is suspended or not tradable;
 - there is a failure in the London Stock Exchange or Société Générale systems;
 - there are abnormal trading situations e.g. sudden and sharp volatility increase or lack of liquidity in the underlying.
- Should you decide not to sell the Product in the secondary market before the Final Determination Date, you will receive a Capital Amount (cash settlement amount) on the Maturity Date. Between the Final Determination Date and Maturity Date two weeks later, the value of the Product may be subject to small variations according to fluctuations in interest rates. This is why the value of the Product on the Final Determination Date will not exactly equal the final value on the Maturity Date.

Your questions answered

About the Underlying – FTSE 100 Index

This FTSE 100 index comprises the 100 most highly capitalised blue chip companies, representing approximately 81% of the UK market.

The chart below shows the performance of the FTSE 100 Index from 1 March 2006 to 1 March 2011 and highlights that the Index may go down as well as up. You should remember that the performance of the Index will affect your level of capital repayment and determine whether you will be entitled to receive a return.

5 year performance of the FTSE 100 Index

Source: Bloomberg, 11 March 2011

This chart shows the past performance of the underlying, the FTSE100 Index, not the Product performance.

Past performance is not a reliable indicator of future performance.

This chart is for illustrative purposes only. The illustrative Specified Range is based on a fictitious closing level of the FTSE 100 Index of 5800. The illustrative range of between the Lower Limit of -23% below and the Upper Limit of 21% above the Initial Index Level is displayed above.

Limitations to your returns

The Range 8 Income offers a return payable each year on the Payment Date and on the Maturity Date. The maximum return will be payable if the closing level of the Index is within the Specified Range on every Trading Day. If the Index closes outside of the Specified Range at any point during the Investment Term, the Daily Accrued Coupon for that day is lost and the annual return will be reduced. You might therefore get less than the maximum coupon or none at all.

How is the Index monitored?

It is the closing level of the Index on each Trading Day during the Investment Term that is used to determine whether the Index is equal to, or has fallen below -23%, or is equal to, or has risen above 21% of the Initial Index Level.

Do I have a claim on the underlying investments that make up the Index?

No, you are purchasing a Securitised Derivative – a Product issued by Société Générale Acceptance N.V., which acknowledges its obligation to pay the benefits described – the return of which is linked to the value of the Index but does not include any direct rights to the Index or the individual securities that make up the Index.

Will I get an income?

Yes. The objective of the Product is to provide you with an annual income provided that the level of the Index stays within the Specified Range. Nevertheless, investing in this Product is not the same as investing in a bank or building society account where capital is guaranteed and, with instant access accounts, is readily available without penalty. Furthermore, if the Index remains at a level outside of the Specified Range on every Trading Day during the investment term, no income will be paid.

Can I change my mind?

You can change your mind between placing the order and the Issue Date. After the Issue Date there is no cancellation process. However, you may sell the Product in the secondary market, although you may get back less than you paid for it.

Can I sell my Range 8 Income before it matures?

Yes, you can sell your Securitised Derivative at its market value prior to the Maturity Date in the secondary market but you might get back less than you invested. The amount you receive from your sale instruction will be the market value of the Product issued by Société Générale Acceptance N.V.. The market value will not be known and cannot be calculated until we process your sale instruction. For more details on secondary market trading and the liquidity risks, please refer to the 'Important information' section.

Will I have to pay any charges or expenses for my Product?

All costs for creating and issuing the Product are built into the terms of the Product. Any charge will incorporate management costs, service fees and commission payable. The charge is not refundable in the event you sell the Product in the secondary market. You will also be charged a standard dealing commission for purchasing the Product via Barclays Stockbrokers. The amount of this commission will depend on the method you use to place the trade. Online charges start at £12.95.

What is a Securitised Derivative?

A Securitised Derivative (SD) is a Security listed on the London Stock Exchange and issued by a bank via a base prospectus which is approved by the UK Listing Authority. Final terms are published for each SD which provides investors with its characteristics and its pay-off at maturity. The Product's features given in the final terms are prescribed by the approved base prospectus.

Can I transfer my investment?

Yes, your Product is transferable. Barclays Stockbrokers will transfer your Product to another broker at your request. If you request a transfer Barclays Stockbrokers will write to you with more details. You (or your broker) may need to take certain steps on maturity of the Product.

Are any commissions payable?

Barclays Stockbrokers will receive a commission for the arrangement of this Product. This will be 3% of your capital investment. Based on an investment of £20,000 the amount of commission would be £600. This is already taken into account in the terms of the Product.

How can I monitor my investment?

Should you wish to obtain the current market value of your Product, you can look at your online portfolio at www.stockbrokers.barclays.co.uk.

What happens when my Range 8 Income matures?

The final redemption amount of the Product is calculated and the proceeds payable to you will be credited to your account by the Maturity Date.

What happens if I die?

If you should die before the proceeds of the Product are available, your personal representatives should contact Barclays Stockbrokers and tell them how they wish your Product to be dealt with as part of probate/administration.

How can I get a copy of the prospectus?

This brochure is a promotional document and not a prospectus and is intended to convey the overall terms of the Product. Full details of the terms of the Product will be contained in the base prospectus and the final terms of the Product which will detail the terms that are specific to this Product and which will be available at the beginning of the offer period, 28 March 2011. The final terms are available on the Société Générale website, www.sglistedproducts.co.uk, or alternatively, the final terms and the base prospectus and any relevant supplements are available from the Barclays Stockbrokers website, www.stockbrokers.barclays.co.uk.

What is the tax treatment?

The Range 8 Income is available for investment as part of an investment ISA (Individual Savings Account) or Self Invested Personal Pension (SIPP).

Any income paid as part of the Annual Coupon may be subject to income tax if the Product is held outside of an ISA or SIPP.*

What if I have a query and/or complaint?

If you have a query and/or complaint, please contact:

Client Services Team
Barclays Stockbrokers
Tay House
300 Bath Street
Glasgow G2 4LH

Should you feel that your complaint has not been dealt with satisfactorily, you may also contact the Financial Ombudsman:

Financial Ombudsman Service
South Quay Plaza
183 Marsh Wall
London, E14 9SR
Tel: 0845 080 1800

Credit ratings

Credit ratings can provide a way for investors to assess the risk of a particular product Issuer such as Société Générale becoming insolvent. Credit ratings are assigned by independent ratings agencies such as Standard & Poors and Moody's. Standard & Poor's rate companies from AAA (Most Secure/Best) to D (Most Risky/Worst) and Moody's rate companies from Aaa (Most Secure/Best) to C (Most Risky/Worst). These credit ratings are reviewed on a regular basis and are subject to change by these agencies.

The credit rating is not a recommendation to purchase, sell, or hold a financial obligation, as it does not comment on market price or suitability for a particular investor. It also does not provide assurance that the institution cannot fail.

**The tax statement is only a general guide. The tax treatment of investments will depend on an individual's circumstances. If investors are in any doubt as to their tax position, they must consult with an appropriate professional tax adviser. This statement of the UK tax treatment of the Product is based on our understanding of the laws and practice in force as of the date of this document and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect.*

Selling your Product

| | |
|---------------------------------|---|
| Nature and frequency | Intra-day with two-way tradable prices under normal market conditions in line with London Stock Exchange rules and market making obligations |
| Minimum transaction size | 5 Units of £100 (i.e. £500) |
| Risk | On the secondary market, the value of the Product can go up and down and you may sell at a price lower than your initial investment. Your capital is therefore fully at risk. |

This Product is available for UK investors only.

You can keep up to date with the value of your investment at:

- www.sglistedproducts.com
- Barclays Stockbrokers website, www.stockbrokers.barclays.co.uk and via your regular statements.

Throughout the Investment Term, the price of the Product will fluctuate. You will be able to sell and buy back the Product on a daily basis through Barclays Stockbrokers in normal market conditions. In abnormal market conditions, if for some reason it has been impossible to calculate the Index level or if we are unable to fulfill our financial obligations in the market (e.g. due to a suspension of the equity market), then your ability to sell your Product may be restricted.

How easy is it to invest?

Investing in this Product couldn't be easier.

- Invest online at your online dealing rate at: www.stockbrokers.barclays.co.uk or
- Call the Barclays Stockbrokers Client Services team on 0845 300 9040*

**Calls made to 0845 numbers are free for BT residential customers as part of their inclusive call package; otherwise calls will cost no more than 4p per minute plus 8p call set-up fee (current as at March 2011). The price on non-BT phone lines may vary; please check with your service provider.*

Disclaimer

This document is issued in the UK by the London Branch of Société Générale. Société Générale is a French credit institution (bank) authorized by the Autorité de Contrôle Prudentiel (the French Prudential Control Authority). Société Générale is subject to limited regulation by the Financial Services Authority in the UK. Details of the extent of our regulation by the Financial Services Authority are available from us on request.

The Product described within this document is not suitable for everyone. Investors' capital may be lost. Investors should not deal in this Product unless they understand its nature and the extent of their exposure to risk. The value of the Product can go down as well as up and can be subject to volatility due to factors such as price changes in the underlying instrument and interest rates.

Prior to any investment in this Product, you should make your own appraisal of the risks from a financial, legal and tax perspective, without relying exclusively on the information provided by us, both in this document and the Pricing Supplement of the Product available on the website www.sglistedproducts.co.uk. We recommend that you consult your own independent professional advisers.

Investors should note that holdings in this Product will not be covered by the provisions of the Financial Services Compensation Scheme, or by any similar compensation scheme.

The securities can be neither offered in nor transferred to the United States.

The tax statement is only a general guide. The tax treatment of investments will depend on an individual's circumstances. If investors are in any doubt as to their tax position, they must consult with an appropriate professional tax adviser. This statement of the UK tax treatment of the Product is based on our understanding of the laws and practice in force as of the date of this document and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect.

Index disclaimer

These Securities are not in any way sponsored, endorsed, sold or promoted by FTSE International Limited ("FTSE") or by The London Stock Exchange Plc (the "Exchange") or by The Financial Times Limited ("FT") and neither FTSE or Exchange or FT makes any warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of the FTSE 100 ("the Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated solely by FTSE. However, neither FTSE or Exchange or FT shall be liable (whether in negligence or otherwise) to any person for any error in the Index and neither FTSE or Exchange or FT shall be under any obligation to advise any person of any error therein. "FTSE100" is a trade mark of London Stock Exchange Plc and the Financial Times Limited and are used by FTSE under license. "All-World" is a trade mark of FTSE."
